

ADJUSTABLE MOUNTING BRACKETS (AMC)

LED TAPE ALUMINUM MOUNTING CHANNELS AND ACCESSORIES

Project Name	Type
Catalog #	Date

PRODUCT OVERVIEW

GM Lighting's aluminum LED tape mounting channels can be mounted at angles by using available adjustable mounting brackets. Designated by the ordering suffix (AMC), these mounting brackets offer variable angle adjustments while establishing a fixed position for the length of the mounting channel. Recommended one bracket for every foot length.

Available for select channels. Please consult factory if you do not see available channel below.

FEATURES

- Manufactured especially for GM aluminum mounting channels
- Pre-drilled screw holes (2)
- Includes mounting screws

SPECIFICATIONS
