

Innovision™ 24V Neon LED Tape Layout Guide

GMLighting

INNOVISION™ IS A LED TAPE THAT FEATURES THE SMOOTH LOOK NORMALLY FOUND IN NEON. HERE ARE SOME TIPS ON CREATING YOUR INNOVISION LAYOUT.

1 CREATE A LAYOUT.

INNOVISION IS A 3W PER FOOT LED TAPE THAT CANNOT BE JOINED TOGETHER BY CONNECTORS. IF YOU NEED MULTIPLE RUNS, LIKE TO FOLLOW ALONG A CEILING PLANE, THEN YOU NEED FOUR SEPARATE RUNS WITH THE ENDS BUTTED AT A 90° ANGLE. FOR A KITCHEN UNDERCABINET LIGHT - MAYBE JUST 1 RUN. ON THE NEXT PAGE IS SOME BLANK GRAPH 'PAPER' THAT YOU CAN USE.

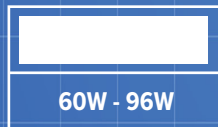

2 FIND A PLACE FOR THE DRIVER.

A DRIVER IS A POWER SUPPLY. INNOVISION WORKS BEST WITH LINE DRIVE XD DRIVERS BY GM LIGHTING. DRIVERS CAN BE MOUNTED IN CABINETS AND CLOSETS AS LONG AS THEY ARE VENTED. BELOW IS A LIST OF XD DRIVERS ALONG WITH DIMENSIONS.

XD DRIVERS

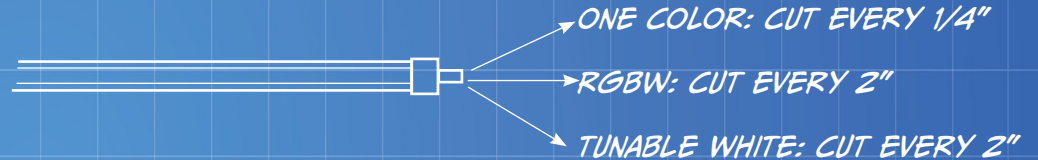

LD-XD-UNV20-24 (20W)
LD-XD-UNV40-24 (40W)
7.93" L X 3.36" W X 1.33" H

LD-XD-UNV60-24 (60W)
LD-XD-UNV96-24 (96W)
8.29" L X 4.10" W X 1.59" H

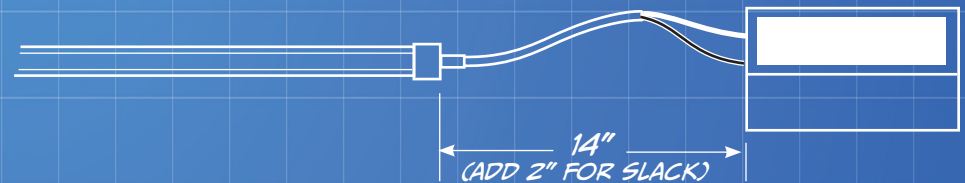

3 CHECK YOUR LAYOUT

WE CUT EXACTLY TO YOUR DIMENSIONS. MAKE SURE THAT ALL DIMENSIONS AND DRIVER PLACEMENT IS ACCURATE. SEE NEXT PAGE FOR LAYOUT EXAMPLES.

4 MARK DRIVER LOCATION

IT'S IMPORTANT TO SHOW NOT ONLY WHERE YOU ARE MOUNTING THE DRIVER IN YOUR LAYOUT, BUT YOU MUST ALSO SHOW THE DISTANCE BETWEEN THE DRIVER AND THE START OF YOUR INNOVISION RUN.

EXAMPLE #1

ANDERSON KITCHEN - INNOVISION
UNDERCABINET - ISLAND TOE-KICK

ADD TO YOUR ORDER:

DRIVERS:

LINE DRIVE XD 24VDC ELECTRONIC LED DIMMABLE POWER SUPPLIES*

- CLASS 2 - 96W MAX 24VDC
- FLICKER FREE DIMMABLE
- STABLE OPERATION
- INNOVISION 5 YR. WARRANTY

20W: LD-XD-UNV20-24

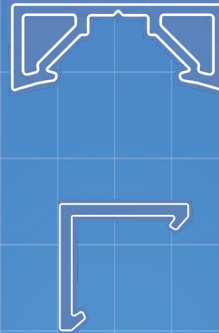

40W: LD-XD-UNV40-24

60W: LD-XD-UNV60-24

96W: LD-XD-UNV96-24

• SEE SPEC SHEET FOR THESE XD DRIVERS
AT GMLIGHTING.NET

MOUNTING CHANNELS:

INNOVISION™ FLAT AND CORNER CHANNEL MOUNTING EXTRUSION

- DESIGNED FOR INNOVISION
- AVAILABLE IN 4' AND 6' LENGTHS
- MOUNTING SCREWS INCLUDED
- EASY TO CUT AND MOUNT

4' CORNER CHANNEL - INACCHL-4

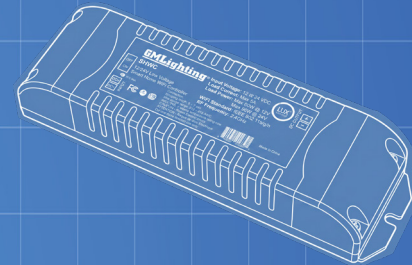

6' CORNER CHANNEL - INACCHL-6

4' STRAIGHT CHANNEL - INAFCHL-4

6' STRAIGHT CHANNEL - INAFCHL-6

SEE SPEC SHEET FOR MORE INFORMATION
AT GMLIGHTING.NET

CONTROLLER:

SINGLE AND RGBW SMART CONTROLLERS FOR LUX CONTROL APP

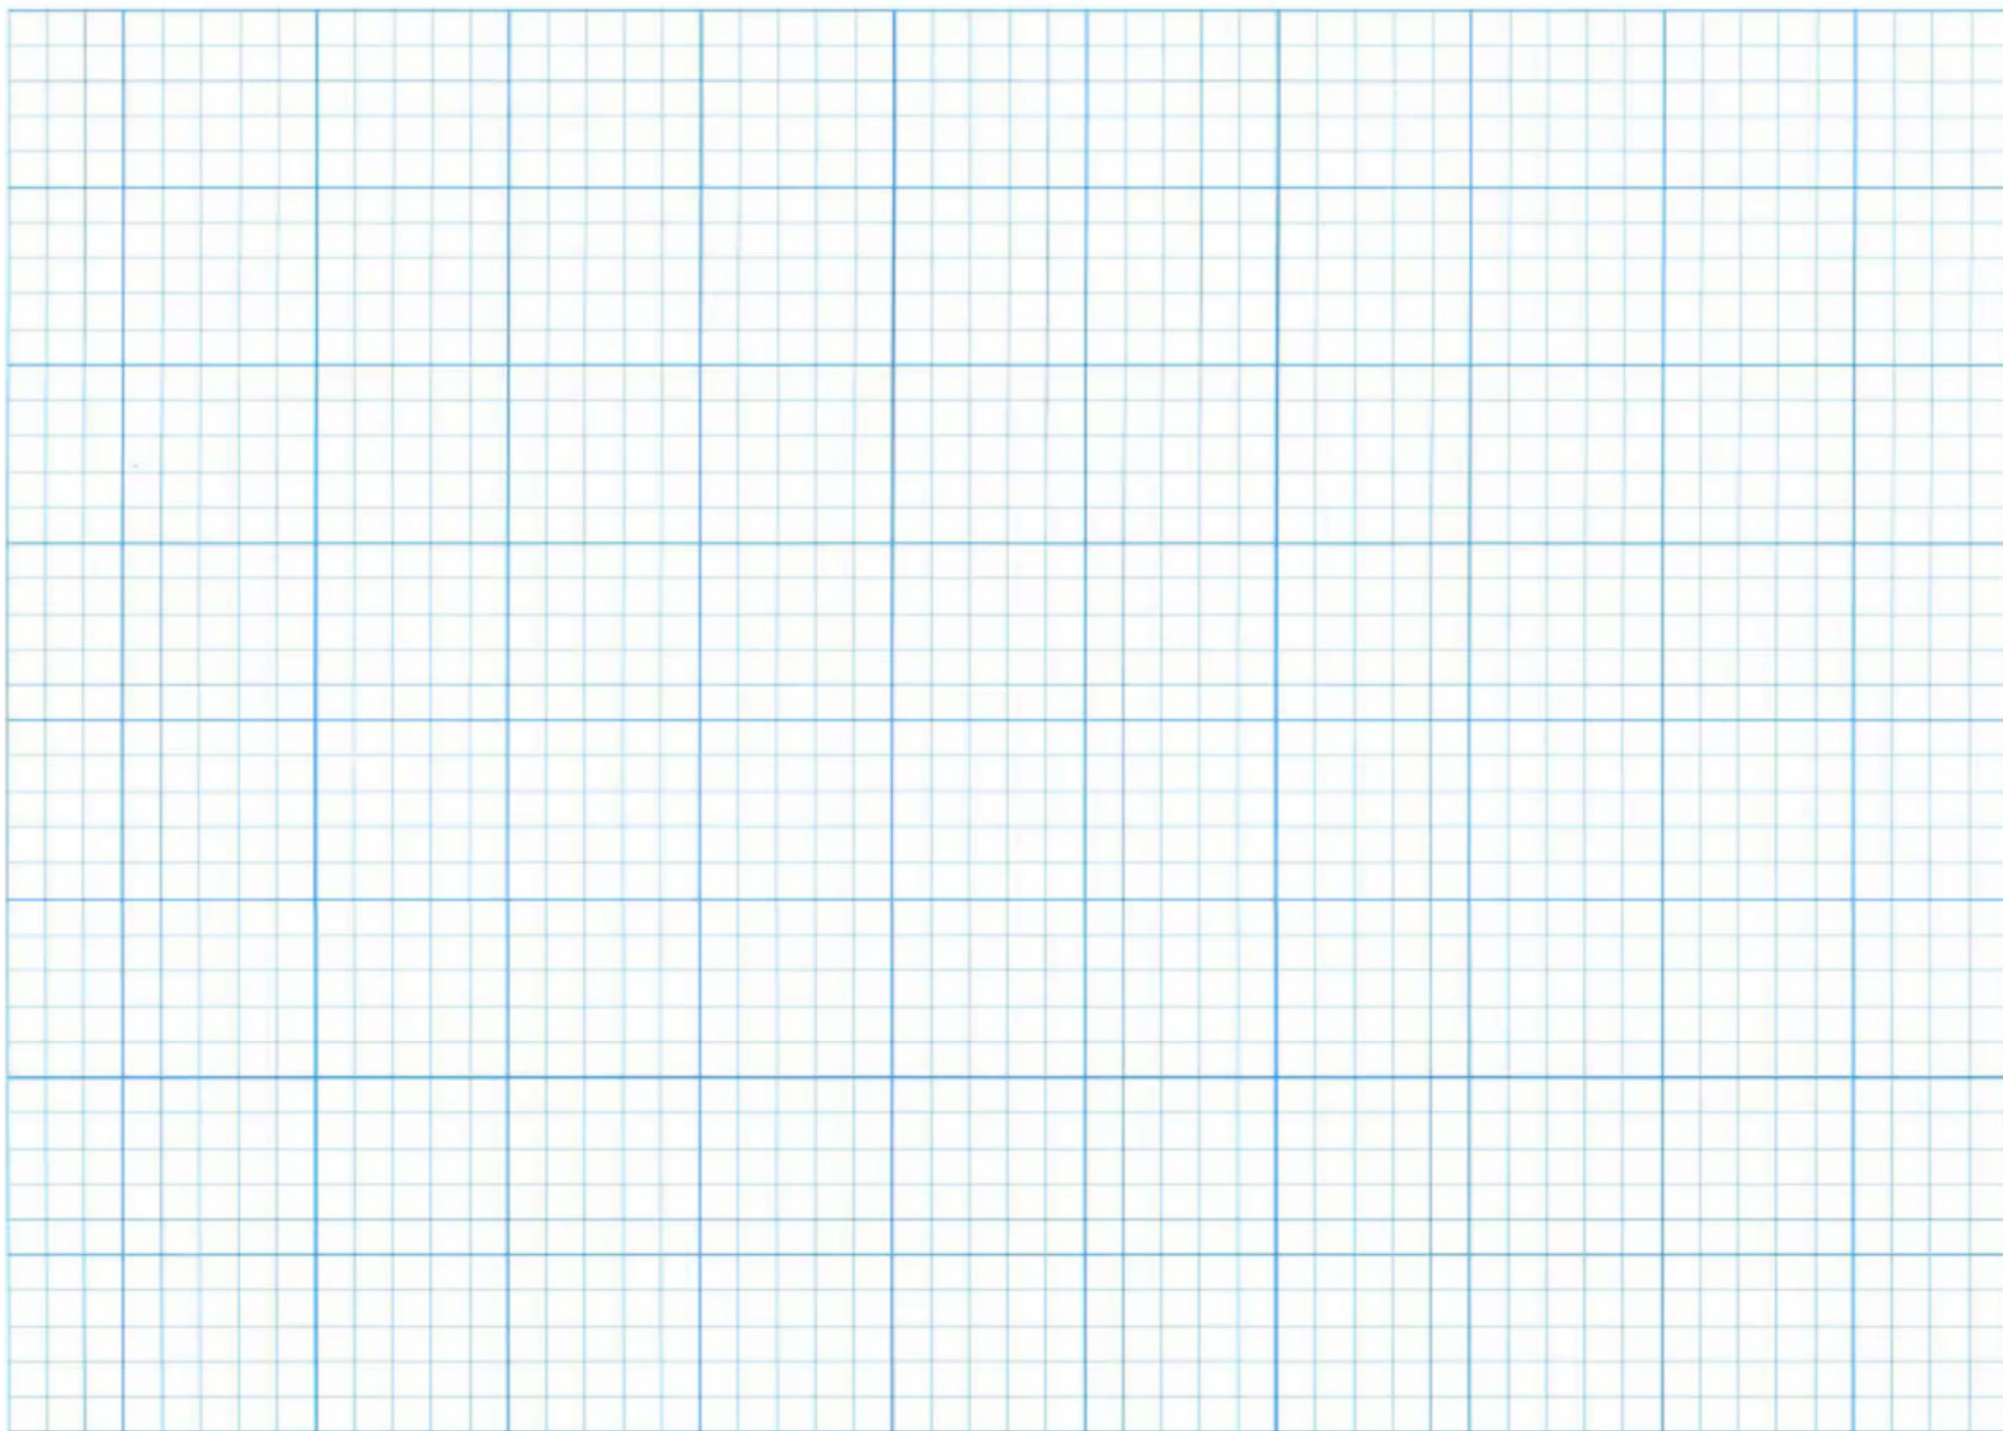

- CONTROL INNOVISION WITH DEVICES
- 96W MAX LOAD
- EASY TO CONNECT AND PROGRAM
- RF AND DMX ALSO AVAILABLE*

SHWC - 2.4 GHZ. SINGLE COLOR
