Applications:

Ideal for residential, commercial and retail environments where smooth, uniform illumination is desired. Perfect for kitchens, cabinets, shelving, coves, closets, bars and built-ins, as well as offices, hospitality spaces, restaurants, displays, retail shelving and architectural accents.

ULTRA

GMLighting®

SCOB Performance. Smooth Illumination.
ULTRA Versatility.

Designed to give every project **more possibilities**, LTR-S ULTRA delivers smooth, uniform illumination with the performance and efficiency today's lighting applications demand. ULTRA's **SCOB construction** combines SMD efficiency with COB-inspired uniformity for clean, consistent light, while innovative **90° L/T connectors** make it easier to navigate corners, branch runs and create more versatile layouts. From architectural accents to complex **custom installations**, ULTRA gives designers and installers the flexibility to take tape lighting in new directions.

LTR-S ULTRA:

- 24VDC models
- Even illumination provided by appealing, white silicone gel. No egg yolk!
- Single CCT tapes available from 2400K to 5000K with 94+ CRI and 60+ R9 for excellent color rendering.
- Available in 4 wattages for optimal light level
1.5W, 3W Tapes: 93 LEDs per ft
4.5W, 5.8W Tapes: 96 LEDs per ft
- 1.5W & 3.0W Cuttable every 0.9" (22.9mm)
4.5W & 5.8W Cuttable every 1" (25.4mm)
- 16ft (16' 4") & 100ft (98' 6") reels lengths
- More light at 110-123 lumens per watt

Easier installation... NEW 90° L/T Connectors!
